Accessories (optional)

Grid
IH-G-3016

Topmount installation

Countertop made of laminate, wood, ceramic tile or other solid surface

Maintenance

Follow one simple rule to keep your sink in good condition: Clean it regularly.

Daily

Clean the sink with a sponge or a rag.

Use mild soap (dish soap) or an all-purpose, non-abrasive liquid cleanser that contains no chlorides or acid.

Always rinse with warm water and wipe with a dry rag to prevent calcium buildup.

Use a bottom grid to protect the metal from wear and scratches.

Precautions

Do not scrub the sink with steel wool or scouring pads.

Do not use abrasive cleaners or products containing chlorides or acid.

Do not use silver polish or grout cleaning products, which can discolor the finish and leave stains.

Use a water and vinegar solution to loosen calcium buildup.

Mustard, mayonnaise, lemon juice, grease, fat, and other food residue can cause rust and stains if left to sit. Be sure to rinse your sink with plenty of water.

Do not place a rubber mat on the bottom of your sink. Food, water, and cleaning products can cling to it and create stains.
